

*Make your Love for each other last forever.*

## When Two Become One

The decision to bring a relationship to the next level should be a happy decision. One that promises a lifetime of mutual happiness and prosperity. Yet, to many couples, it is a decision that comes with tough questions.

- How do we know that we are ready?
- Is it important to understand each other's health conditions?
- Does health affect a relationship?
- What does it take to make a marriage work without the stress?
- How do we deal with jealousies and insecurities?
- When communication breaks down, why is it hard to make up?
- How do we deal with each other's different habits and patterns?
- Is it easy to be healthy and happy?

## Allow Love to flow

When two souls come together in the name of Love, this is good. We see Unconditional Love working for the union, bringing out the best vibrations in each person for the mutual benefit of a long-lasting, loving and prosperous relationship.

In this world of human reality, it is easy to mistake self-serving wants and needs with true Love. Only when we allow Unconditional Love to take away the stresses of our lives, we see the free flow of the body's Life Energy (Chi) in our meridian system and enjoy a life-long happy relationship with others and the world around us. This is key to happiness in any committed union.

### Un-stress Your Relationship

As a loving couple, practice openness in the true nature of Unconditional Love. Instead of dwelling on your differences, focus on the joy of being on the same vibrational frequency to make your dreams as a couple come true. The state of happiness is given. Let go and allow it to happen every moment of your life together.
